**DETAILED ACTION**

**Election/Restrictions**

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:

I. Claims 1-17, drawn to a database system.

II. Claims 18-19, drawn to a data method.

Applicant is required under 35 U.S.C. 121 to elect a single disclosed species for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable. Currently, no claims are generic.

Applicant is advised that a reply to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable thereon, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which are written in dependent form or otherwise include all the limitations of an allowed generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).

Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over

the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other invention.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement is traversed (37 CFR 1.143).

Applicant is advised that the cancellation of non-elected claims is required.

During a telephone conversation with Attorney Stanley Fisher on 08/09/2006, a provisional election was made to prosecute the invention of Group I, 1-17 and agreed to cancel group II, claims 18-19.

#### **Examiner's Amendment**

2. An examiner's amendment to the record appears below. Should the changes and /or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.3.12. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

3. The following claim has been amended upon agreement by applicant during a telephone conversation with Attorney Stanley Fisher on 08/09/2006.

Non-elected claims 18-19 have been canceled.

4. The Examiner's amendment has been made in order to place the application in a condition for allowance.

### **Reasons for Allowance**

5. The following is an examiner's statement of reason for allowance:

Claims 1, 2 and 10 are considered allowable since the prior made of record and considered pertinent to the applicant's disclosure does not teach or suggest the claimed limitations. Carino (U.S. 6,353,818) or Brown (U.S. 2003/0093408), taken individually or in combination, do not teach the claimed invention having a display panel, comprising, along with all the other claimed feature, a log acquisition unit for acquiring a processed query log relevant to each database server; and a rule production unit for producing said rule according to a compatibility value of a query calculated using the acquired query log in a compatibility calculation unit; and said front-end server further comprising a query posing unit that uses the rule produced by said management server to pose the query.

Therefore, claims 1-17 are presently allowed.

6. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
